## Goal and competence profile

Creative, disciplined and solution-oriented student. Experienced in applying and following up the entire system development chain from needs and ideas to a complete demo application, also building and integrate all of the processes needed to run a company. My goal is to find a challenging and suitable system developer position in an ambitious company that offers opportunities for future career and personal advancement.

## Education

- 2019 - now **BPhil with a major in Informatics** [University West](#)  
Currently pursuing a bachelor's degree of Philosophy with a major in Informatics.
- 2021 - 2022 **Bachelor of Science in Engineering** [University of Applied Sciences Upper Austria](#)  
One semester abroad ERASMUS+ with a major in mobile computing.
- 2014 - 2016 **Economics Program** [Gothenburg Institute of Technology](#)  
Got a High school diploma in Economics.

## Work experience

- 01/17 - now **Assembler** [Volvo Cars Corporations \(TC\)](#)  
Assembly of Volvo cars before they are delivered to different parts of the world. The job requires both planning and evaluation in relation to the various incoming cars. It also requires that you have a high communication ability while you are very quality conscious during production.
- 01/15 - 12/16 **Assembler** [Volvo Trucks AB](#)  
Involved in the production of Volvo trucks, which was in the final phase. Here I identified and analyzed the software system in the truck and developed different strategies to deal with the problems.
- 07/14 - 12/14 **Salesman** [Key Solutions](#)  
Sales of broadband, television and telephony. The job requires discipline, determination, a good level of communication and knowledge in service management towards customers. Continuous training in handling service and sales during working hours.
- 01/12 - 05/14 **Assembler** [International Automotive Components \(IAC\) Group](#)  
Quality control on instrument panels, door panels and armrests on Volvo cars. Gained knowledge of internal and external logistics and the interaction between subcontractor and associated stakeholders. Also taught me the assembly of the instrument panels of Volvo cars.
